

voutia™

Continuous Relief for Acute and Chronic Dry Mouth

A NEW Approach to Dealing with Chronic Dry Mouth.

The Voutia™ oral hydration system delivers on-demand, non-surgical, non-pharmaceutical and continuous relief of Xerostomia (Dry Mouth) symptoms.

Anyone who's had difficulty swallowing, speaking, or sleeping because of chronic dry mouth knows how uncomfortable, even debilitating, this condition can be. Chronic or acute dry mouth (Xerostomia) has many causes. Some are from a biologic etiology, such as a genetic condition or the aging process. Others are iatrogenic, the result of radiation, surgery, chemotherapy or as a side effect of prescription medication. Whatever the cause, a persistent dry mouth can affect the quality of a patient's life.

Voutia™ is a simple, hands-free system that uses a quiet micro-pump and ultra-fine tubing to deliver fluid to a user's mouth. Since salivary function varies over the course of a day, Voutia's technology allows users to adjust fluid delivery to continuously meet their specific needs. It's slow controlled delivery mimics typical salivary flow rates.

With Voutia™, you can get your life back! This system is customizable for a patient's unique needs and/or lifestyle.

Enjoy a restful sleep with Voutia™ !

FDA-cleared and beta tested for over 3 years. The sample group reported:

- Relief from symptoms
- Flow adjustability to meet individual needs
- More normal lifestyle and sleep patterns
- Ease of set-up and usage
- Ability to use the system 24/7
- **Excitement** with system performance!

All beta testers would recommend Voutia™ to fellow dry mouth sufferers.
